OWNER'S MANUAL

Welcome!

Thank you for buying this multi-media mobile audio system!

To operate the system correctly, please read the operational manual carefully before using the unit. Keep these instructions and retain this booklet for future reference.

About This Manual

This unit features a number of sophisticated functions ensuring superior operation. This manual will help you understand the functions and operations of the unit. This manual mainly explains **remote control operation**. However, in addition to those functions related with DVD/VCD/CD/MP3 operation that can only be operated by the remote control, there are also functions that can be operated by the buttons provided on the main unit.

Notes on Installation

- ☞ The unit is designed for DC 12V , negative ground operation system only. Before installing the unit, make sure your vehicle is connected to DC 12V negative ground system.
- ☞ Be sure to connect the color coded leads according to the diagram. Incorrect connections may cause the unit to malfunction or damage the vehicle's electrical system.
- ☞ Make sure all the connections are completely correct before turning on your unit.
- ☞ When replacing the fuse(s), the replacement must be of the same amperage as shown on the fuse holder.
- ☞ Do not block vents or radiator panels. Blocking them will cause heat to build up inside and may result in fire.
- ☞ After completing the installation and beginning to play the unit,(including replacing the battery), press **RESET** button on the base with pointed object (such as ball-point pen) to set the unit to initial status.

OWNER'S MANUAL

Precautions

☞ This unit can play the following discs only:

Type of disc	Label on the disc	Recorded material	Size of disc
DVD		Sound and moving pictures	12cm
VCD	 	Sound and moving pictures	12cm
CD		Sound only	12cm
MP3		Sound only	12cm

NOTE: The unit is compatible with VCD 1.0/2.0/3.0 version and DVCD disc.

- ☞ Do not attempt to modify the unit, modifying the unit may cause an accident.
- ☞ Stop the vehicle before carrying out any operation that could interfere with your driving.
- ☞ Do not work in extremely high or low temperature. Be sure the temperature inside the vehicle is between -10° C and +60° C before turning on your unit .
- ☞ To enjoy optimum sound and images while playing, handle the discs as follows:
 - Handle the disc by its edge to keep the disc clean, and do not touch the surface.

— Do not use your CDs with paste residue or ink attached.

— Do not use CDs with labels or stickers attached, which may leave a sticky residue while beginning to peel off.
(Shown as the picture)

— Clean the discs with an optional cleaning cloth. Wipe each disc from the center out.

Built-in radio frequency output mode

1.Brief function Introduction

Carrier signal of 88.5MHZ or 88.9 MHZ can be switched to radio wave which can be received by FM, the switch in the air is made by the built-in radio frequency output mode of the unit, which tune the audio signal in carrier signal by tuning stereo mode.

2.Operation of the Built-In Radio Frequency Output Mode

- ① Pull out and install the brown antenna, but not install it along the metal surface, or the signal will be affected.
- ② To insure receiving the local stations, tune the frequency in 88.5MHZ or 88.9 MHZ.
- ③ Enjoy the music of DVD,VCD or CD after tuning your radio in 88.5MHZ or 88.9MHZ (stereo frequency modulation radio is the best.)

Maintenance

Replacing the Fuse

Make sure the amperage matches the specified value when replacing the fuses. If the fuse is blown, check the power connection and replace with a new one. If the same problem occurs, it would be subjected to the malfunction. In such cases, please consult to the nearest service dealer.

⚠ Warning

Never use the fuse with the rated amperage more than that supplied to your unit, otherwise it will damage the unit.

Replacing the Battery

When the range of the operation of the card remote control becomes short or no functions while operating. Replace the lithium battery with a new button cell (CR2025). Make sure the battery polarity before replace.①

- Put the button-type battery with mark(+) upward into the Battery Holder.

- Insert the Battery Holder into the Remote Control.

Precautions on Using Lithium Battery

- Always keep the lithium battery beyond children's reach. In case swallowed, see a doctor immediately.
- Cleaning the battery with a dry cloth, to ensure its perfect connected.
- Make sure the proper polarity when loading with the battery.
- To prevent short circuit, do not use metal tweezer to clip the battery.

⚠ Warning!

Improper handle with the battery may lead to explosion.
It cannot be charged , disassembled or thrown into a fire.
